

Elevate your university and boost student employability with dual-accreditation

ILM's dual-accreditation is a bespoke service designed for universities to map your existing programmes to ILM qualifications that are highly valued by employers, enabling your students to achieve a fully recognised ILM award, certificate or diploma.

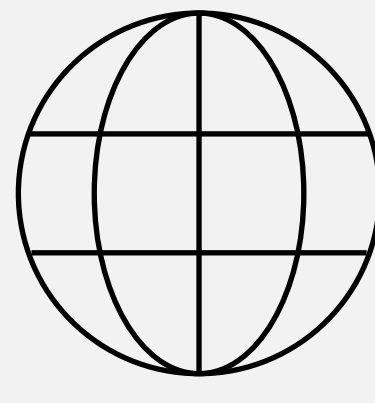

In our recent survey, customers said that ILM is known for...

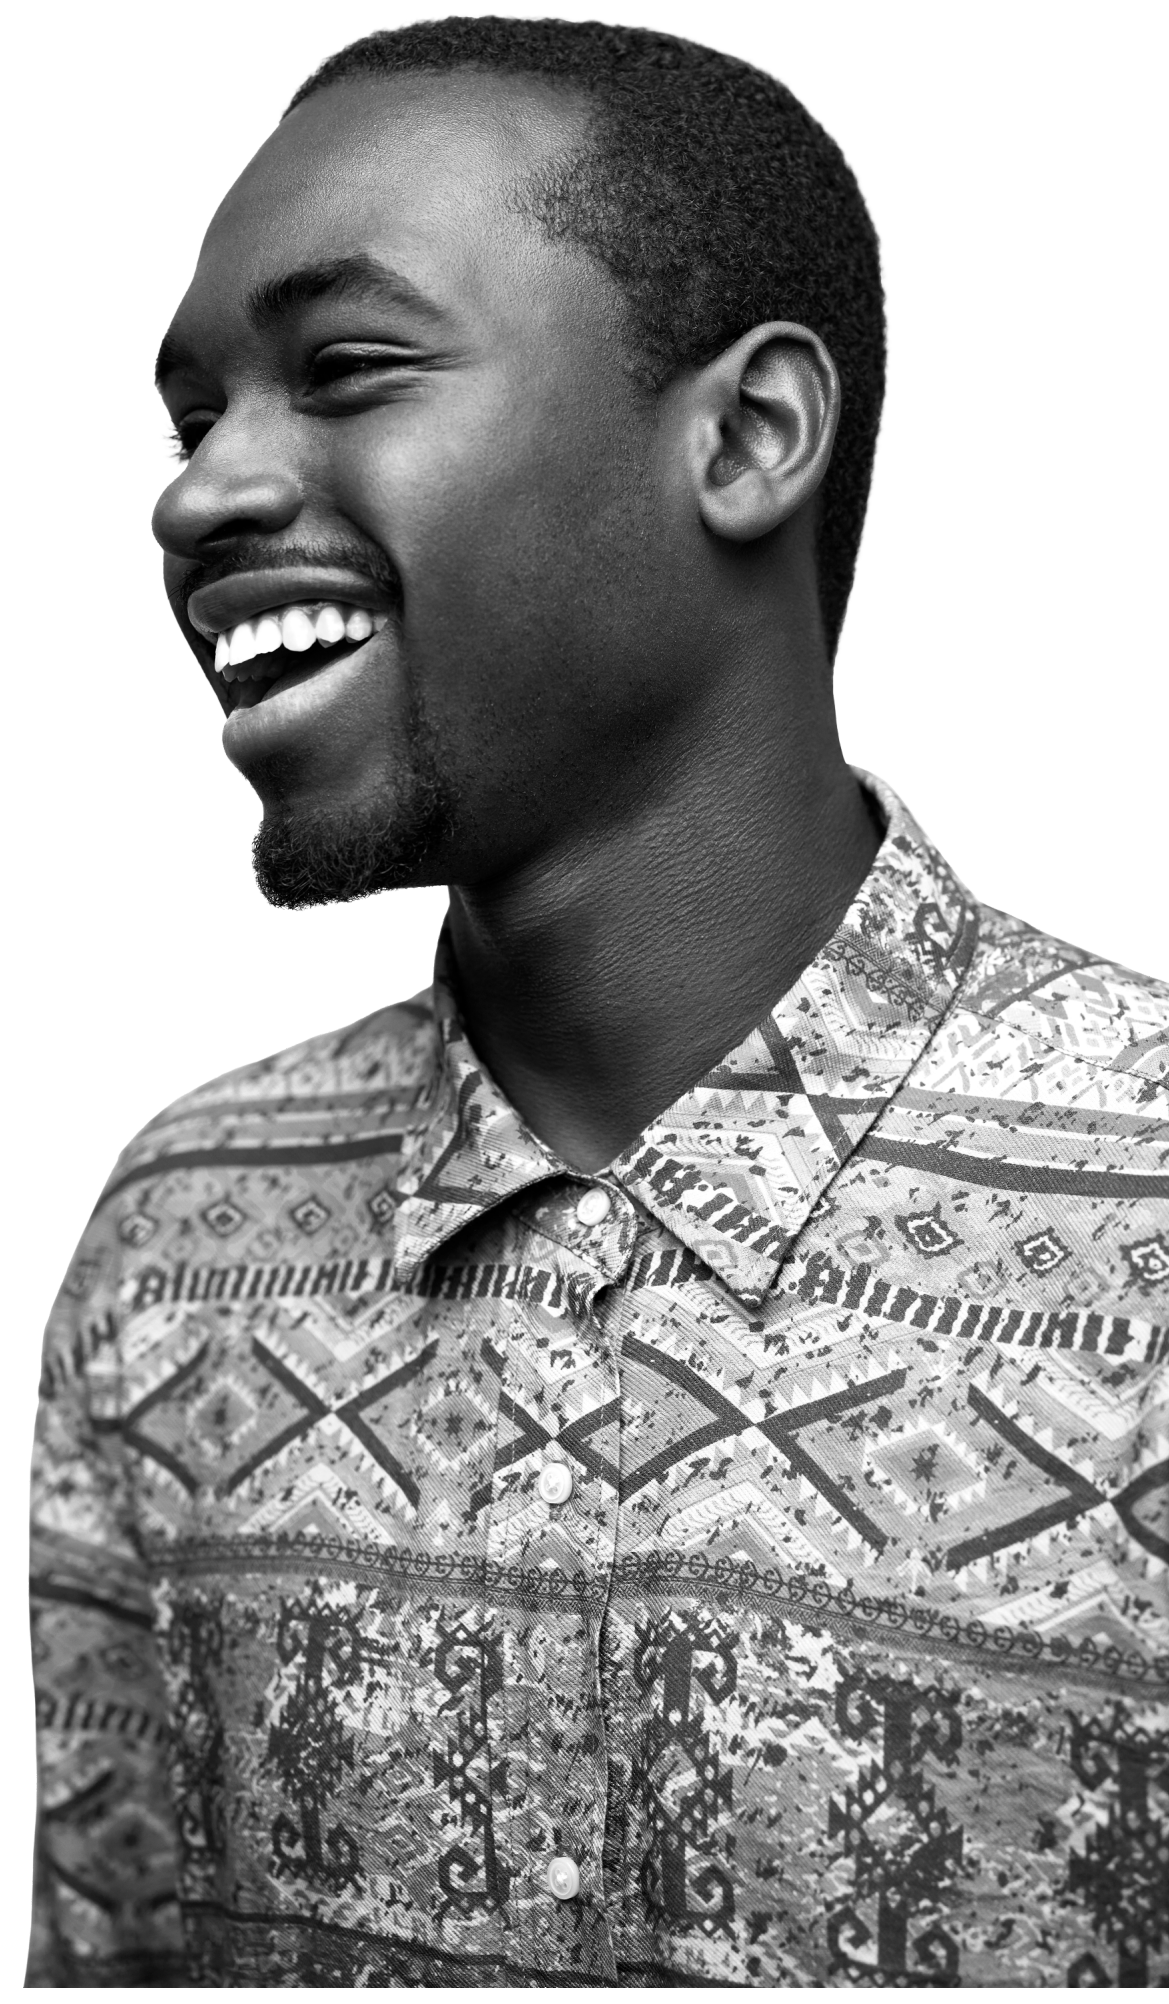

High quality products

Being renowned in the leadership and management world

Being a globally recognised brand

The power of digital credentials

Your students achieve a fully recognised ILM award, certificate or diploma with an innovative dual-branded digital credential, a verified, portable, data-rich proof of competency, to showcase their achievements and amplify career opportunities and progression.

83%

of employers say digital credentials help them to identify qualified candidates

500k

issued by ILM and City & Guilds

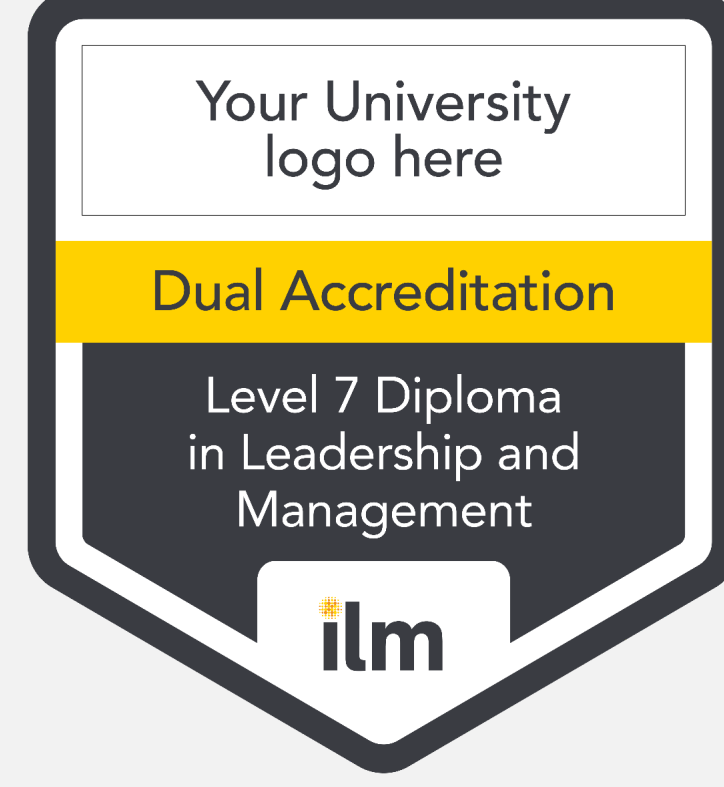

83%

of our digital credential recipients believe that it is a 'great way of showcasing my commitment to learning and development'

Packed within each of your student's unique digital credential image files is information about your programme and university, enabling you to widen your brand reach globally across learner, employer, provider and Higher Education markets.

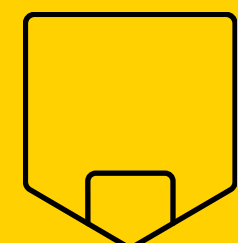

Additional benefits for your university

1. Become a university of choice with enhanced learning opportunities from a market-leading specialist brand.

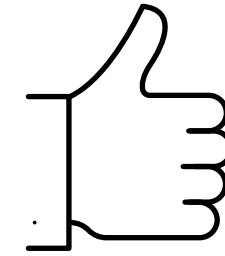

2. Receive a dual accreditation logo to enhance your marketing, promote your programmes and showcase your alignment with the ILM brand.

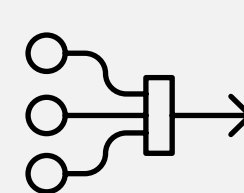

3. Boost employability by giving students the capacity to share their skills and achievements through leading-edge technology with global employer networks.

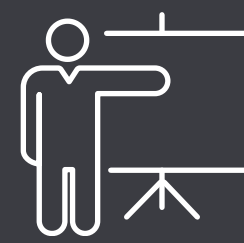

5. Receive dedicated account management support.

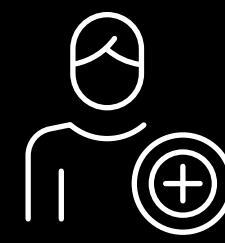

6. Use your existing quality processes and policies in our unique and streamlined EQA process.

4. Provide membership to tutors for access to content, events, tools and resources.

7. Enable your students to participate in tailored induction events.

Additional benefits for students

1. An internationally-recognised qualification that demonstrates skills, supports career progression and aligns with professional standards.

2. The ability to build and boost a personal brand across global platforms with progressive digitalisation.

3. Access to live labour market information and job pathways through our innovative and unique credential platform.

4. Student membership with access to an award-winning toolkit of resources, webinars, tools and events.

5. Optional upgrade to professional membership.

6. No additional time or workload requirements.

Amplify and accelerate your qualifications today
